PLANETARY HEALING AND MEDITATIONS: ANGELS OF URANUS AND “THE TRUMPET CALL” – AQUARIUS

Astrology can seem very complex and technical, but we can put aside details, and focus on the simplicity of the Angelic power given to us with God’s love. White Eagle says some inspiring things about planetary themes: “A person is influenced all the time by the planets. These planetary influences play upon the human life through the chakras, which are the windows of the soul. Each chakra has a link with a planet and the colour associated.” Turn your thoughts to the starry sky and pray to the “angels and archangels and planetary angels” who come to “stimulate light in the stones on your earth. You are as the stones; these great ones come to help you: they bring indescribable spiritual power and love.” [WWA 132, 139] Ponder these simple words, and pray that you too will be a channel of their healing light into every corner of the world and to illumine your own life.

In the Christmas issue I wrote on Saturn, as the dominant “ruler” of Capricorn. The up-coming humanitarian “Fixed” Air sign of Aquarius is also ruled by Saturn, along with the influence of

Uranus. White Eagle says: “The angels of Uranus sound the TRUMPET CALL; they come sweeping through, bringing a breaking-up of solid conditions which have been crystallized and set by Saturn. This cleansing and purification is an aspect of God perhaps not yet understood by the young in spirit. If things are swept out of your life, know that all is constructive, all is good. Work in harmony with the forces of God and see in everything construction, evolution, growth and beauty.” [WWA 114]

Aquarius can be a very intellectual sign (5th Ray) and includes the highest levels of Science, and is a sign of idealistic groups. Now we see more scientists around the globe than ever before actively organising, making a “Brotherhood” of thinkers seeking to serve, using satellites, computers and the internet (all very Uranian); the positive outworking of these planetary energies. The intellect needs to focus on the love aspect so it is notable that White Eagle “launched” the Brotherhood work in stages in 1934 and 1935 (at times of powerful Solar eclipses in Aquarius). The Angels of Aquarius and its ruling planets are again being emphasised.

Saturn and Uranus – Inspired new forms: If we take Saturn to be the planet of “form”, and Uranus as the “inspirer” this can be a very fruitful time. These planets are in the outer reaches of the Solar

system and move through the Zodiac very slowly, like hands of a vast celestial clock. So major aspects between them are unusual, and due to being so slow, their influence became strong in 2008, and will last through 2010. The work of the Planetary Angels includes pouring power onto the Earth. Such energies relate to our meditations, and to the work of all humanitarian groups like the Lodge.

It is notable that this aspect first occurred in Nov. 2008 on the exact day of the US elections. So “inspiration” (Uranus), seems to have taken “form” (Saturn) with a major change in the US Govt. in the middle of the Global Financial Crisis, and the world has seen heated debates about global warming with an unprecedented series of major international conferences on economies and environment all during this period.

Since 2008 the constructive Angels of Saturn have been working through Virgo (practicality, service, and analysis), and the inspiring Angels of Uranus are working in Pisces (self sacrifice, and compassion). This pair of “Mutable” signs also involves the Angels of Wisdom, so they are offering humanity a chance to learn to apply practical wisdom, with idealism and dissolution (Pisces) of old structures. Do not feel worried if at times leaders in conferences seem lost in endless squabbles over inspired ideals (Uranus in Pisces) and practical details (Saturn in Virgo)! Such Angelic influences take time to properly blend and penetrate the minds of humanity, to transmute the “stones” as White Eagle calls us, creating new ideas and forms to guide us

forwards. The Angels sound the “trumpet call” and we see the birth pains of a sense of global Brotherhood.

White Eagle reminds us we have a role in helping the Angels in their work: “wonderful is the spiritual law that the human contact, through willing hearts on earth, is necessary before the angels can make contact at the physical level of life.” [WWA, p. 87] He means our hearts can receive the vibrations of the Planetary Angels and radiate them out on a human level. These planetary energies are available all year, so at any time, you can be like a Lighthouse, and “shine.”

VISUALISATION: Pray the light will infuse world scientists with enduring wise love for the greater “Brotherhood of all Life.” Visualise scientists, and world leaders bathed in the light of God, and being guided by the Angels of PEACE, LOVE, and WISDOM.

To “tune in” to these Angelic influences, and help radiate their light, we can meet at a Retreat on these Planetary Angels at Maleny starting on the 25th of July for the Full Moon (in Aquarius).

For THIS month – the Sun moved into Aquarius on Jan 20th about 2.30pm – (Australian Eastern Standard Times) Full Moon: In Leo 30th Jan. about 6pm. Aquarius and Leo are “Fixed” signs, good for achieving solid and lasting outcomes. A Full Moon is usually thought to be a good time to complete something. This Moon will be in the loyal, individualistic Fire sign Leo (which rules the heart and heroes), and will be with the dynamic “Red Planet” Mars, both being energised by the Sun. This indicates great courage,

but maybe also some reluctance to compromise, so group work may need more patience than usual. Think of the humble “Sisterhood” of bees, they transmute the light of the Sun (Leo) into golden honey. They work together in the hive and perform miracles. So strive to work with others to create honey in the lives of those in your groups. The crystal “Kunzite” is good for humility and it may help calm the ego and ease tensions.

Draw on the Divine Mother energy of the Full Moon to hold onto the still centre of PEACE, with poise feel the vitality and WILL of Mars and radiate this with LOVE aspect of Leo (ruled by the Sun). Strive to put aside the “Little” self of everyday that gets offended, or easily distracted, and rise up into the centre of the glorious Sun, into the heart of the Star. In this centre of Divine Golden Light all shadows, all trivial disagreements, melt away. Be flexible and compromise to further the greater good. Affirm in PEACE that “I submit MY will to the WILL OF GOD.”

MEDITATIONS – You may find some items aid your meditations, e.g.: wearing appropriately coloured clothing; or use a crystal, gem (on jewellery), or metals for specific energies, or place these on a small altar in your home; or visualise them. Crystals and items ruled by the SUN such as Amber and Citrine are yellow-gold in colour. Quartz looks LUNAR and colours are white through Pearl (or mother of pearl), and silver. For the signs Aquarius and Pisces, include the calming Amethyst, Aquamarine for inspiration, and Rose

Quartz to emphasise love, beauty and acceptance.

For meditations combining the powerful vibrations of Saturn and Uranus ensure you will not be disturbed, and prepare carefully, the colours below are those of Saturn. Make your room a place of stillness, listen to peaceful music, visualise a beautiful sunlit scene, perhaps with strong trees, reminding us of Saturn, with roots deep in the steadying and nourishing Earth, strong brown trunks and branches, with green leaves bathed in the purest golden sunlight. Our Guides and spirit helpers draw close, they take our hands and draw us up, up, into a wonderful Temple of purest crystal. It pulses with the brilliance of Uranus, and like a Lighthouse, beams radiate far out over all the Earth. The Light is a guide for all of humanity, it bids us STILL the stormy seas of emotion and confusion. Come safely into a harbour, to spiritual enlightenment. The Angel calls “Awake!” See all humanity guided by the Angels of Divine Wisdom, Peace, and Love. See the whole Earth as a beautiful blue jewel in Space, bathed in the healing Light of God, made perfect in the Light.

When you feel ready, return to the peace of the woods, lean your back on the steady tree trunk, feel your deep link right down into the centre of the Earth. Seal your chakras slowly and with care, and quietly step back into your self of everyday, like pulling on a familiar coat, this “you” can then go forth, refreshed, and ready to do your daily work “with humility and high endeavour.”

Sun into Pisces Feb 19th about 4am – The White Eagle Lodge opened in 1936 with

Pisces as its Sun sign, it is a sign of “universal consciousness.” The August issue discusses this sign (and Virgo). This month the Moon phases are similar, with the additional influence of the wise Angels of Mercury (the Egyptian God Thoth), healing and teaching. For meditations, maybe use an Amethyst and Agate, or blue and yellow colours. Full Moon (in Virgo) is exact just after mid-night of Feb. 28th – 1st March, blending practical service and purity, with the idealistic Pisces Sun (added to Jupiter), so an uplifting vibration and intuitive flow of the higher mind. A good time for worshipful rituals (the 7th Ray), visualise and meditate on beautiful flowers with music; colours: deep blue or violets; gem: Sapphire.

Other coming dates (AEST) –
Sun into Aries (the Equinox) on March 21st – about 3.30am –
Full Moon (in Libra) on 30th March (midday);

WWA = quotes from White Eagle, “Walking With the Angels.”
For crystals see Judy Hall, “Encyclopedia of Crystals, Crystal Zodiac.”

Antony Howe.

Julie and Rina writes:- “Something to share with you; you know I have been collecting 5 cent coins for White Eagle for a long time now and to my constant surprise, they seem to appear in many varied places and it touches my heart each time, knowing that White Eagle is with me. Isn’t that interesting?”

Thank you Julie and Rina for your continued support and for sharing the above.

The ‘Million dollar 5c fund’ was started in the late 1980’s when plans were under way to build the Temple. People have continued the tradition and it is amazing how quickly the jar fills and how 5 cents grow into \$50. If you would like to be part of this tradition, this flow of energy, please write or email for a pyramid shaped cardboard money box. Each side of the pyramid has inspirational sayings from White Eagle to bless our day.

All around us are the pine trees – symbolising peace, aspiration and strength...and the music of the wind breathes its message to heart and to mind....All Is Well.

White Eagle
